

DISCO BY JAMES DIETER

Disco is a chandelier with softly glowing rings of light. The discs are linked to one another by angled arms and are designed to move through 360 degrees of rotation, allowing us to assemble different configurations of the parts.

EGG PORCAS BY OURTA OFICINE

Ourta Oficina experiments with eclectic furniture using materials in completely new ways, like making their Egg Porcas chair out of nuts!

ABCD TABLE BY KUKKA

Inspired by the materials they're made from, dichroic glass and quartz create a dialogue with reflection and refraction. In partnership with Caesarstone and Prinz Optics GmbH, kukka has designed occasional tables unlike anything the industry has ever seen before.
